WIDE WIDTH WALLPAPER Alternative Substrates

VINYL

- Fine, woven texture.
- Achieves highest fire ratings so ideal for the contract market.
- Narrower than our standard non-woven paper.
- It is not possible to print very dark backgrounds on our Vinyl substrate.
- **Measurements** Because vinyl is narrower Vertical Repeat and Finished Width of a design are reduced when printed on this paper - this is important for quantity calculations:
 - Printed width **126cm**
 - Finished width **124cm**
 - Vertical repeat **approx. 92% of original** depending on finished width of original design.
- **Sampling** printed to order so can take 10 working days.
 - 80cm x full width samples **£26.00** inc vat
 - Please note A4 samples of Vinyl wallpaper are no longer available.
- **Production Prices**
 - RRP **£122.00** inc vat
- **Lead Times**
 - Production standard 3-4 weeks from approval of cutting.
- **Adhesive**
 - For all our wallpaper we recommend any good, pre-mixed, heavy duty, proprietary brand such as Solvite, Polycell or Halls B-Line.
