The professionals show how to mix and match with colour and texture in these bedroom schemes

**1** Michaelis Boyd designed the interiors for this chic bedroom with a pop of floral frivolity on an upholstered chair in a contemporary new hotel, Kimpton de Witt, Amsterdam ([michaelisboyd.com](http://michaelisboyd.com)). **2** Keech Green embraces chintz in this heavenly bedroom scheme for an American client. It features Lewis & Wood's Vauxhall Gardens wallpaper, Carsten Aqua Check from Bruunschwig & Fils and Brittany stone-washed linen by Nicholas Haslam ([keechgreen.com](http://keechgreen.com)). **3** Nicola Harding's homely bedroom for The Garden House at Beaverbrook, Surrey features walls painted in Dead Salmon by Farrow & Ball and patchwork cushions by Alex Adams for The Cloth Shop. The lamp is her own design ([nicolaharding.com](http://nicolaharding.com)). **4** Interior designer Jo Hamilton was inspired by Vivienne Westwood's Magnolia Ice rug for The Rug Company in this bedroom scheme, adding a blush bench from her own collection and pendant light by Lindsey Adelman ([johamilton.co.uk](http://johamilton.co.uk)).
